

Transition Talks Tuesdays: Successfully Moving Forward

Transition has many pieces! Join Sauk Prairie School District and the Southern Regional Center for Children and Youth with Special Health Care Needs and learn about what those pieces are and how you can stay a step ahead!

Families of students receiving special education or 504 supports in grades 7-12+, educators, therapists and community support providers are invited! The FREE series will start September 12 and continue on Tuesdays through October 24. Learn more about each session at: <https://go.wisc.edu/TTTSauk>.

For those who wish to attend the evening sessions in person, the Sauk Prairie School District's district office (440 13th Street, Prairie du Sac) will be open to families who wish to attend. There will be a space for those in need of the Spanish translation session as well as one for English. All talks will be simultaneously interpreted into Spanish. Underwriting for interpretation services is provided by Sauk Prairie School District and Wisconsin Integrated Transition Planning Project (WITPP). WITPP finds ways for youth with disabilities to get better information about healthcare, education, and employment services. This information can make the transition to adulthood easier. Visit their [website](#) to find helpful [resources](#) and ways to get involved.

Register for one or more sessions (virtual or in-person):
