

The Southern Regional Center offers workshops to increase knowledge and skills about medical home and youth health transition.

Registration is open for the following workshops. All workshops will be delivered virtually using the Zoom platform. You will receive the Zoom link when you register.

If you have any problems with the registration, please call Sonja at 608-265-8955.

Register for one or more workshops at: <https://go.wisc.edu/6zo4w8>

Day of the Week	Date	Time	Workshop
Thursday	9/12	2-3pm	<b>Bridging the Gap: Health Care Transition</b> covers what Health Care Transition is, how health care impacts other areas of transition, and what skills can be learned before adulthood.
Monday	9/25	12-1:30pm	<b>Build Your Bridge</b> helps guide families through the transition from child-centered to adult health care systems.
Thursday	9/28	1-2pm	<b>Exploring Care Mapping</b> is a hands-on opportunity to create a care map of your family’s strengths. A Care Map is a visual way to show all the people and services involved in caring for and supporting your child.
Thursday	10/5	6-7pm	<b>Caring for the Whole Family</b> explores the emotions and the realities of raising a child with a special health care need or disability. Learn about resources and supports available for your whole family. This discussion is for families who may be new to the world of special health care needs and disabilities.
Monday	10/23	6-7pm	<b>Bridging the Gap: Health Care Transition</b> covers what Health Care Transition is, how health care impacts all the other areas of transition, and some skills to learn before adulthood.
Tuesday	10/24	11am-12pm	<b>Assembling a Care Notebook</b> Care Notebooks are a way to organize your child’s medical records, resources and educational information. Join us to learn ways to assemble and organize a Care Notebook and the benefits of using it to coordinate care.
Wednesday	11/29	6-7pm	<b>Requesting a Shared Plan of Care</b> A Shared Plan of Care is a summary of your child’s medical and non-medical information and may be used as a tool for communication. Learn more about the benefits of having one and how to work with your provider to develop one.
